

Volume 42 Number 1 (published March 1997)

Jerzy Trammer and Andrzej Kaim

Body size and diversity exemplified by three trilobite clades 1–12

Petr P. Gambaryan and Zofia Kielan-Jaworowska

Sprawling *versus* parasagittal stance in multituberculate mammals 13–44

Andrzej Baliński

Evolution of the embryonic development in lingulid brachiopods 45–56

Jerzy Dzik

Emergence and succession of Carboniferous conodont and ammonoid communities in the Polish part of the Variscan sea 57–170

Discussion

Ron K. Pickerill and David G. Keighley: Notostracan trackways and parataxonomy – a commentary 171–174

In memoriam

Henryk Makowski (1910–1997) 175–176

Volume 42 Number 2 (published June 1997)

Dieter Korn

Evolution of the Goniatitaceae and Viséan–Namurian biogeography 177–199

Zofia Kielan-Jaworowska and Jørn H. Hurum

Djadochtatheria – a new suborder of multituberculate mammals 201–242

Alexander O. Averianov

New Late Cretaceous mammals of southern Kazakhstan 243–256

Halszka Osmólska, Stephane Hua and Eric Buffetaut

Gobiosuchus kielanae (Protosuchia) from the Late Cretaceous of Mongolia: anatomy and relationships 257–289

Ewa Olempska

Changes in benthic ostracod assemblages across the Devonian–Carboniferous boundary in the Holy Cross Mountains, Poland 291–332

Andrzej Kaim

Brachiopod-bivalve assemblages of the Middle Triassic Terebratula Beds, Upper Silesia, Poland 333–359

Paper review

Karol Sabath: Dinosaur feathers 200

Editorial note

Quotation of Russian references 290

In memoriam

Gonzalo Vidal (1943–1997) 360

Volume 42 Number 3 (published September 1997)**Teresa Maryńska and Halszka Osmólska**

The quadrate of oviraptorid dinosaurs 361–371

Harry Mutvei

Siphuncular structure in Ordovician endocerid cephalopods 375–390

Anna Kozłowska-Dawidziuk

Retiolitid graptolite *Spinograptus* from Poland
and its membrane structures 391–412

Alexander Ivanov and Michał Ginter

Comments on the Late Devonian placoderms
from the Holy Cross Mountains (Poland) 413–426

Andrzej Baliński

A new atrypid genus (Brachiopoda) from the Frasnian
of Poland 427–435

Rodney M. Feldmann and Andrzej Gaździcki

A new species of *Glyphea* (Decapoda: Palinura) from the
La Meseta Formation (Eocene) of Seymour Island, Antarctica 437–445

Book review

Zofia Kielan-Jaworowska: Traditional paleontology lives on
– Neogene and Quaternary Mammals of the Palaearctic 372–374

Discussion

Jerzy Fedorowski: Rugosa and Scleractinia – a commentary
on some methods of phylogenetic reconstructions 446–456

Volume 42 Number 4 (published December 1997)**Walter Kegel Christensen**

Palaeobiogeography and migration in the Late Cretaceous
belemnite family Belemnitellidae 457–495

Michał Kowalewski, Karl W. Flessa, and Jonathan D. Marcot

Predatory scars in the shells of a Recent lingulid brachiopod:
Paleontological and ecological implications 497–532

Gerard Gierliński

Sauropod tracks in the Early Jurassic of Poland 533–538

Nomenclatorial note

Boris A. Trofimov: A new generic name *Gobiotheriodon* for
a symmetrodont mammal *Gobiodon* Trofimov, 1980 496

Brief report

Piotr Wegierek and Vladimir V. Zherikhin: An Early Jurassic
insect fauna in the Holy Cross Mountains 539–543

Editorial note

Quotation of Russian references 544

In memoriam

Halina Pugaczewska (1921–1997) 545

Andrzej Sulimski (1926–1997) 546
