

## Issue 1 (published March 2003)

**Christian B. Skovsted and Lars E. Holmer**

The Early Cambrian (Botomian) stem group brachiopod *Mickwitzia* from Northeast Greenland ..... 1–20

**Weimin Feng and Weiguo Sun**

Phosphate replicated and replaced microstructure of molluscan shells from the earliest Cambrian of China ..... 21–30

**Eva Egerquist**

New brachiopods from the Lower–Middle Ordovician (Billingen–Volkhov stages) of the East Baltic ..... 31–38

**Igor F. Nikitin, Leonid E. Popov, and Michael G. Bassett**

Late Ordovician brachiopods from the Selety river basin, north Central Kazakhstan ..... 39–54

**Catherine Crônier**

Systematic relationships of the blind phacopine trilobite *Trimeroccephalus*, with a new species from Causses-et-Veyran, Montagne Noire ..... 55–70

**Dieter Korn, Jürgen Bockwinkel, Volker Ebbighausen, and Christian Klug**

Palaeobiogeographic and evolutionary meaning of an early Late Tournaisian ammonoid fauna from the Tafilalet of Morocco ..... 71–92

**Piotr Mierzejewski**

Autothecal morphs and dormancy in the camaroid graptolite *Xenotheka* ..... 93–98

**Piotr Mierzejewski and Cyprian Kulicki**

Cortical fibrils and secondary deposits in periderm of the hemichordate *Rhabdopleura* (Graptolithoidea) ..... 99–111

**Mags Duncan**

Early Carboniferous chondrichthyan *Thrinacodus* from Ireland, and a reconstruction of jaw apparatus ..... 113–122

**Andrew R. Milner and Sandra E.K. Sequeira**

Revision of the amphibian genus *Limnerpeton* (Temnospondyli) from the Upper Carboniferous of the Czech Republic ..... 123–141

**Andrew R. Milner and Sandra E.K. Sequeira**

On a small *Cochleosaurus* described as a large *Limnogyrinus* (Amphibia, Temnospondyli) from the Upper Carboniferous of the Czech Republic ..... 143–147

## Brief reports

**Alexander O. Averianov, J. David Archibald, and Thomas Martin**

Placental nature of the alleged marsupial from the Cretaceous of Madagascar ..... 149–151

**Magdalena Borsuk-Bialynicka, Teresa Maryńska, and Mikhail A. Shishkin**

New data on the age of the bone breccia from the locality Czatkowice 1 (Cracow Upland, Poland) ..... 153–155

**Forest J. Gahn, Alex Fabian, and Tomasz K. Baumiller**

Additional evidence for the drilling behavior of Paleozoic gastropods ..... 156

**J. Alan Holman and David L. Harrison**

A new helmeted frog of the genus *Thaumastosaurus* from the Eocene of England ..... 157–160

**Editorial note:** Quotation of Russian references ..... 142

**In memoriam:** Anna Jerzmańska (1928–2003) ..... 148

## Journal review

**J. David Archibald:** A new periodical on mammals ..... 152

## Issue 2 (published June 2003)

**Jørn H. Hurum and Karol Sabath**

Giant theropod dinosaurs from Asia and North America: Skulls of *Tarbosaurus bataar* and *Tyrannosaurus rex* compared ..... 161–190

**Philip J. Currie**

Cranial anatomy of tyrannosaurid dinosaurs from the Late Cretaceous of Alberta, Canada ..... 191–226

**Philip J. Currie, Jørn H. Hurum, and Karol Sabath**

Skull structure and evolution in tyrannosaurid dinosaurs ..... 227–234

**Yoshitsugu Kobayashi and Jun-Chang Lü**

A new ornithomimid dinosaur with gregarious habits from the Late Cretaceous of China ..... 235–259

**Hai-Lu You and Peter Dodson**

Redescription of neoceratopsian dinosaur *Archaeoceratops* and early evolution of Neoceratopsia ..... 261–272

**Zofia Kielan-Jaworowska, Jørn H. Hurum, and Demchig Badamgarav**

An extended range of multituberculate *Kryptobaatar* and distribution of mammals in the Upper Cretaceous of the Gobi Desert ..... 273–278

**Francesca R. Bosellini and Cesare A. Papazzoni**

Palaeoecological significance of coral-encrusting foraminiferan associations: A case-study from the Upper Eocene of northern Italy ..... 279–292

**Zhai Renjie, Russell L. Ciochon, Tong Yongsheng, Donald E. Savage, Michael Morlo, Patricia A. Holroyd, and Gregg F. Gunnell**

An aberrant amphicyonid mammal from the latest Eocene of the Bose Basin, Guangxi, China ..... 293–300

**James D. Gardner, Susan E. Evans, and Denise Sigogneau-Russell**

New albanerpetontid amphibians from the Early Cretaceous of Morocco and Middle Jurassic of England ..... 301–319

## Nomenclatorial note

**Piotr Mierzejewski and Cyprian Kulicki:** *Sokolovisyrix*, a new name for *Sokolovites* Kozłowski, 1967

(Pogonophora?) preoccupied by *Sokolovites* Casey, 1966 (Mollusca, Ammonoidea) ..... 260

## Book review

**Magdalena Borsuk-Bialynicka:** Old World Neogene elasmotheriid rhinoceroses ..... 320

**Issue 3** (published September 2003)

<b>David W. Krause, Michael D. Gottfried, Patrick M. O'Connor, and Eric M. Roberts</b> A Cretaceous mammal from Tanzania	321–330
<b>Rajendra S. Rana and Gregory P. Wilson</b> New Late Cretaceous mammals from the Intertrappean beds of Rangapur, India and paleobiogeographic framework	331–348
<b>Gerhard Hahn and Renate Hahn</b> New multituberculate teeth from the Early Cretaceous of Morocco	349–356
<b>Denise Sigogneau-Russell</b> Docodonts from the British Mesozoic	357–374
<b>Grégoire Métais, Pierre-Olivier Antoine, Laurent Marivaux, Jean-Loup Welcomme, and Stéphane Ducrocq</b> New artiodactyl ruminant mammal from the late Oligocene of Pakistan	375–382
<b>Marco P. Ferretti</b> Structure and evolution of mammoth molar enamel	383–396
<b>Marcin Machalski, John W.M. Jagt, Rudi W. Dortangs, Eric W.A. Mulder, and Andrzej Radwański</b> Campanian and Maastrichtian mosasaurid reptiles from central Poland	397–408
<b>Fredrik Terfelt</b> Upper Cambrian trilobite biostratigraphy and taphonomy at Kakeled on Kinnekulle, Västergötland, Sweden	409–416
<b>Anita Löfgren</b> Conodont faunas with <i>Lenodus variabilis</i> in the upper Arenigian to lower Llanvirnian of Sweden	417–436
<b>Jana Bruthansová and Petr Kraft</b> Pellets independent of or associated with Bohemian Ordovician body fossils	437–445
<b>Frank K. McKinney and Paul D. Taylor</b> Palaeoecology of free-lying domal bryozoan colonies from the Upper Eocene of southeastern USA	447–462
<b>Andrzej Baliński and Gertruda Biernat</b> New observations on rhynchonellid brachiopod <i>Dzieduszyckia</i> from the Famennian of Morocco	463–474
<b>Jens Seeling and Peter Bengtson</b> The bivalve <i>Pinna cretacea</i> (Schlotheim, 1813) from the Cretaceous of Brazil	475–480
<b>Markus Wilmsen and Elena A. Yazykova</b> Campanian (Late Cretaceous) nautiloids from Sakhalin, Far East Russia	481–490
<b>Tomasz Ceranka and Michał Złotnik</b> Traces of cassid snails predation upon the echinoids from the Middle Miocene of Poland	491–496
<b>Nomenclatorial note</b>	
<b>Piotr Mierzejewski and Cyprian Kulicki:</b> <i>Helicotubulus</i> , a replacement name for <i>Helicosyrinx</i> Kozłowski, 1967 (?Phoronidea) preoccupied by <i>Helicosyrinx</i> Baur, 1864 (Mollusca, Gastropoda)	446

**Issue 4** (published November 2003)

<b>Jarosław Stolarski</b> Three-dimensional micro- and nanostructural characteristics of the scleractinian coral skeleton: A biocalcification proxy	497–530
<b>Esperanza Fernández-Martínez, Francis Tourneur, and Antonio López-Alcántara</b> A new Middle Devonian heterocoral from Spain	531–546
<b>Stefan Schröder and Francisco Soto</b> Lower Devonian (Emsian) rugose corals from the Cantabrian Mountains, northern Spain	547–558
<b>Marcello Ruta</b> A species-level supertree for stylophoran echinoderms	559–568
<b>David Penney</b> A new deinopoid spider from Cretaceous Lebanese amber	569–574
<b>Gloria Cuenca-Bescós and José I. Canudo</b> A new gobiconodontid mammal from the Early Cretaceous of Spain and its palaeogeographic implications	575–582
<b>Jürgen Kriwet</b> Neoselachian remains (Chondrichthyes, Elasmobranchii) from the Middle Jurassic of SW Germany and NW Poland	583–594
<b>Zbyněk Roček</b> Larval development in Oligocene palaeobatrachid frogs	595–607
<b>Márton Venczel and Zoltán Csiki</b> New frogs from the latest Cretaceous of Hateg Basin, Romania	609–616
<b>Reinhard Ziegler</b> Moles (Talpidae) from the late Middle Miocene of South Germany	617–648
<b>Brief reports</b>	
<b>Magdalena Borsuk-Białynicka and Susan E. Evans</b> A basal archosauriform from the early Triassic of Poland	649–652
<b>Adam Bodzioch, Wojciech Kozłowski, and Anna Popławska</b> A <i>Cooksonia</i> -type flora from the Upper Silurian of the Holy Cross Mountains, Poland	653–656
<b>Gisle Fosse</b> Calculation of numerical density of enamel prisms in multituberculate enamels: A review	657–660
<b>Discussion</b>	
<b>Jean-Claude Rage</b> Relationships of the Malagasy fauna during the Late Cretaceous: Northern or Southern routes?	661–662
<b>Book review</b>	
<b>Richard L. Cifelli:</b> A graveyard of titans	608
<b>Contents of Volume 48</b>	663–664
