A new problematic microfossil from the Eocene of Western Europe

Janina Szczechura
Acta Palaeontologica Polonica 24 (2), 1979: 265-274

A new problematic microfossil named *Aubertianella keiji* gen. et sp.n. is described from the Lower Eocene (Ilerdlan) of Spain and Lower Eocene (Ypresian) of Belgium. It is compared with other problematicats, often considered as tintinnids; the systematic position of the discussed forms is revised.

**Key words:** Paleogene, Problematica, taxonomy, W. Europe.
