

Bijifissurinella (Bryozoa) from the Middle Miocene of the Central Paratethys

Janina Szczechurowa

Acta Palaeontologica Polonica 30 (3-4), 1985: 201-208

Bifissurinella cornifera sp.n. and *Bifissurinella* cf. *triangularis* Poignant et Ubaldo, 1973, are described from the Middle Miocene of the Central Paratethys. New morphological features are reported in the two species which may support the assignment of *Bifissurinella* to the Bryozoa. The generic assignment of the described species is discussed .

Key words: Taxonomy, morphology, Bryozoa (*Bifissurinella*), Middle Miocene, Central Paratethys.
