

## Contents

### Volume 41 Number 1 (published March 1996)

#### Halszka Osmólska

- An unusual theropod dinosaur from the Late Cretaceous  
Nemegt Formation of Mongolia . . . . . 1–38

#### Denis E.B. Bates

- The ultrastructure of some Ordovician graptoloid prosiculae . . . . . 39–57

#### Yong-yi Zhen

- Succession of coral associations during a Givetian  
transgressive-regressive cycle in Queensland . . . . . 59–88

#### Marta Bąk

- Cretaceous Radiolaria from Niedzica Succession  
of the Pieniny Klippen Belt in Polish Carpathians . . . . . 91–110

#### Paper reviews

- 58, 89–90

### Volume 41 Number 2 (published June 1996)

#### Hubert Szaniawski and Minoru Imajima

- Hartmaniellidae — living fossils among polychaetes . . . . . 111–125

#### Richard D. Hoare, Royal H. Mapes, Thomas E. Yancey

and Merlynd K. Nestell

- Late Paleozoic turrilepadid machaeridians  
from North America . . . . . 127–145

#### Theresa Winchester-Seeto

- Emsian Chitinozoa from the Buchan area  
of southeastern Australia . . . . . 149–230

#### Paper reviews

- 126, 146–148

### Volume 41 Number 3 (published September 1996)

#### Magdalena Borsuk-Białynicka

- The Late Cretaceous lizard *Pleurodonta gama*  
and the origin of tooth permanency in Lepidosauria . . . . . 231–252

<b>Jørn H. Hurum, Robert Presley and Zofia Kielan-Jaworowska</b>	
The middle ear in multituberculate mammals . . . . .	253–275
<b>Mieczysław Wolsan and Brigitte Lange-Badré</b>	
An arctomorph carnivoran skull from the Phosphorites du Quercy and the origin of procyonids . . . . .	277–298
<b>Leonid E. Popov, Lars E. Holmer and Vladimir Ju. Gorjansky</b>	
Middle Cambrian lingulate brachiopods from the Tarbagatai Range, Kazakhstan . . . . .	299–317
<b>Paper review</b> . . . . .	276
<b>Editorial note</b> . . . . .	318

**Volume 41 Number 4** (published December 1996)

<b>Józef Kaźmierczak, Max L. Coleman, Michał Gruszczyński, and Stephan Kempe</b>	
Cyanobacterial key to the genesis of micritic and peloidal limestones in ancient seas . . . . .	319–338
<b>Jarosław Stolarski</b>	
<i>Gardineria</i> — a scleractinian living fossil . . . . .	339–367
<b>Marcin Machalski</b>	
Scaphitid ammonite correlation of the Late Maastrichtian deposits in Poland and Denmark . . . . .	369–383
<b>Stanisław Orłowski and Anna Żylińska</b>	
Non-arthropod burrows from the Middle and Late Cambrian of the Holy Cross Mountains, Poland . . . . .	385–409
<b>Paweł Filipiak and Wojciech Krawczyński</b>	
Westphalian xiphosurans (Chelicerata) from the Upper Silesia Coal Basin of Sosnowiec, Poland . . . . .	413–425
<b>Paper review</b> . . . . .	368
<b>Book reviews</b> . . . . .	384, 410–412, 426
<b>Contents</b> . . . . .	427–428
