ACTA PALAEONTOLOGICA POLONICA

The most complete amiid fish from the Coal Creek Member of the Eocene Kishenehn Formation in northwestern Montana

Jacob D. Gardner and Mark V.H. Wilson
Acta Palaeontologica Polonica 67 (2), 2022: 493-508 doi:https://doi.org/10.4202/app.00733.2020

The larger-bodied fish fauna of the Kishenehn Formation's Coal Creek Member (Eocene, 43.5 Ma), northwestern Montana, is understudied because of a sampling bias towards small specimens. Small specimens (
