

***Gobekko cretacicus* gen. et sp. n., a new gekkonid lizard from the Cretaceous of the Gobi Desert**

Magdalena Borsuk-Białynicka

Acta Palaeontologica Polonica 35 (1-2), 1990: 67-76

Gobekko cretacicus gen. et sp. n., a new representative of the family Gekkonidae sensu Kluge (1987), has been described from the ?upper Santonian and/or ?lower Campanian Djadochta Formation of the Gobi Desert. The presence of this family in the Cretaceous of Central Asia, suggested by earlier finding of fragmentary remains of *Hoburogekko suchanovi* Alifanov 1989 in the Aptian-Albian of the Gobi Desert, is thus confirmed.

Key words: Reptilia, Sauria, Gekkota, Cretaceous, Mongolia.
