

Lower Carboniferous ostracodes of the Holy Cross Mountains, Poland

Ewa Olempska *Acta Palaeontologica Polonica* 26 (1), 1981: 35-53

Forty four Tournaisian and Lower Visean ostracode species from the SW Holy Cross Mts (Góry Świętokrzyskie) have been identified, including two new ones: *Graphiadactylloideas slowikensis* sp.n. and *Microchetlinella bushminae* sp.n. Their stratigraphic importance to the Upper Devonian and Lower Carboniferous, as well as their geographical disrribution have been discussed.

Key words: Ostracoda, Lower Carboniferous, Poland.
