

New Jurassic foraminifera from Eygpt

Ezzat Abd-Elshafy and Nagwa Ibrahim *Acta Palaeontologica Polonica* 35 (1-2), 1990: 15-29

Two new genera *Paramigros* and *Abuhammadina* as well as 19 new species and subspecies were described from the subsurface Jurassic in the area east to the Nile Delta. They are benthic textulariin and millioliin forms representing 12 genera and 9 families.

Key words: Foraminifera, Jurassic. Egypt.
